Python, C++, attention to detail and from previous work experience, a strong work ethic.

PROJECTS:

Contacts List, BBCC individual project

2020-2021

- Using C++, a contacts list was created using classes and a csv file, where adding or deleting a contact was possible as well as identifying if certain data was missing and preventing a crash or irregularity.

AWARDS AND EXPERIENCES

Awards: WSOS Scholar, HS World Languages Award

June 2019

Community Service: Quincy Animal Shelter – Cleaning spaces for animals, Quincy Donation Center – Organizing and arranging clothes from donations.

Experience: 2017 Wenatchee Conference

OTHER EXPERIENCE

General Laborer, Washington Fruit, Quincy, WA

since 2017 (summers only)

- First and second seasons, the hard physical work created a stronger will to be more responsible to be able to be noticed for better opportunities.
- Following years, given the opportunity to care for a group of people, led my communications skills and organization abilities more efficient.

General Laborer, Sandoval Market, George, WA

July 2019

- Having no manager led for a stronger work ethic, as well as more responsibility.
